PROMOTIONAL BAGS **2013**

[GB] [FR] [SE]

Let the bags do the talking.

Our promotional bags carry your messages out into the world, and especially to where they should be: with your target group. Using bags, logos grow feet! In this way our bags help make brands, companies and products visible, and literally keep campaigns moving - long after the posters have gone.

Promotional bags simply promote longer - on the condition that they have the right characteristics. Design which inspires: processing which passes the tests of everyday life and the general quality soon turns a promotional article into a favourite companion. You'll find an abundant selection of such companions in our catalogue again - including our latest creations, which we are particularly proud of. Have fun discovering them!

Conveying emotion in few words: that was the art mastered by the legendary silent movie film stars of the twenties and thirties. We think this principle fits perfectly to our bags! So be prepared to let our catalogue captivate you and carry you off into the world of black and white silent movies. You can also take a look at these fantastic pictures on film in our „Making of“ videos under www.halfar.com

Newcomers

2013

A new talent enters the limelight - always a moving moment. Will they conquer our hearts? Will they become new stars? In this respect we are most confident about our newcomers. After all, they have everything that marks a star: Charisma, versatility and individual style. Discover exciting materials and combinations, new cuts and formats, diverse fields of application (for instance for smart phones and tablets) and sophisticated details such as buckles, quiltings or edgings.

Our promotional bags are worth taking a closer look at. At HALFAR®, we pay attention to all aspects of quality. Starting with the inspection of materials for harmful substances, through to an extended guarantee, right up to our own distinguished EU productions. Our labels are provided to make this quality visible to you. You can find them here in our catalogue and also in part as a label on the actual bag - for increased transparency and safety.

Quality

Tested materials

The HALFAR® „tested materials“ mark offers assurance of the safety of the materials used and the working conditions under which they are produced.

Testing is done in collaboration with leading independent institutions.

c-mark

c-mark certification is a quality standard from Bureau Veritas. To achieve it, products are examined for relevant harmful substances using regularly updated, specialist test programmes.

Guarantee

We offer our customers a 3 year warranty on materials and workmanship; because HALFAR® is dedicated to making only the best quality bags and backpacks.

Express Bag

A customised bag, finished in only five days. Just choose from the special Express Bag range and it's done. Look out for our symbol.

EU made and assembled

All HALFAR® bags signed with this label are manufactured or finished in Europe. In fact the important steps in the process, like the de-

coration, often take place directly in our head office in Bielefeld. This ensures reliability and quality.

Tested Materials

Our label: a security guarantee.

Trust and security are always a priority for HALFAR®. As experts in bags, backpacks and luggage, we are very conscious of our responsibility when it comes to the fabrication of materials, but also for the working conditions under which the products are made.

That is the reason for the introduction in 2008 of the tested materials label.

**BUREAU
VERITAS**

Tested materials - acknowledged by an independent lab

Thanks to an intelligent security guarantee system and to numerous tests in their facilities in Germany and China, Bureau Veritas Consumer Products Services make sure that Halfar System GmbH is working in conformity with all legislations (LFGB and REACH) at each step of and after the production. Moreover all of Halfar System collaborators are regularly trained by Bureau Veritas Consumer Products Services GmbH to constantly adapt the quality guarantee system to evolving requirements and standards in the market.

Halfar works with quality label c-mark

The main objective of the c-mark programme is to track all traces of materials that are recognized as polluting according to European standards. The c-mark label's requirements are thus determined for components and end products, and they are regularly adapted to current standards by independent experts.

The BSCI Code of conduct

The BSCI Code of Conduct is based on the most important international Conventions protecting workers' rights such as the International Labour Organisation (ILO) Conventions and other important Declarations of the United Nations on child labour and the prohibition of any form of discrimination against women, the OECD guidelines for multinational enterprises and the UN Global Compact. Its objective is to ensure that specific social and environmental standards are respected. Suppliers also have to make sure that the Code of Conduct is respected by subcontractors who take part in any step of the production process. The following are the key standards:

- | | |
|--|---|
| 01 Legal Compliance | 06 Workplace Health and Safety |
| 02 Freedom of Association and the Right to Collective Bargaining | 07 Prohibition of Child Labour |
| 03 Prohibition of Discrimination | 08 Prohibition of Forced Labour and Disciplinary Measures |
| 04 Compensation | 09 Environment and Safety Issues |
| 05 Working Hours | 10 Management Systems |

Expressbag

A ready finished bag in just 5 days. No surcharge.

Whether for short-notice promotions, an imminent trade fair or a quick present – HALFAR® Expresssbags make this possible. Choose your favourite item – more colours can be found in the main section of this catalogue. We will finish your run of up to 500 pcs with a maximum two colour screen print or embroidery with up to 8000 stitches. Just send us a good technical template for your finish. As soon as everything has been approved, the clock starts ticking. The bag will be sent to your customer by the 5th working day at the very latest. Guaranteed.

Finishing & Features

Print methods

Silkscreen print

Silkscreen print is a direct printing method where colour is pressed with a squeegee through a screen directly onto the bag.

Digital print

With digital printing, high tech ink jet printers are piloted directly from a computer to create the image on the material. It is particularly adapted to bags with large flaps surfaces made of tarpaulin.

Transfer print

A transfer is an indirect printing method. The desired image is first printed on a special paper using silkscreen, offset or digital techniques. This image is later transferred from the paper onto the bag or backpack using a heat transfer press. The transfer print process enables the reproduction of intricate multicolour designs.

Embroidery

The transformation of existing artwork into an embroidery pattern is performed using sophisticated special software. The number of stitches and the size, colour and direction of each stitch are specified. The programme file is then used to pilot the needles of the embroidery machines and thread colours. Our modern multi-head machines can embroider up to 15 thread colours simultaneously.

What we need from you

- Graphic files in vectorised .eps or .ai format
- taking care that all text is fully vectorised
- Colour information for digital printing: CMYK

- Colour information for screen print: PMS
- Photographic or bitmap images files should be in actual size with a minimum resolution of 300 dpi

Digital printed labels

Digital printed labels

Intricate designs in difficult places

Most decoration methods for intricate designs must be applied to the component panels before the bags are made up. In addition many parts of a bag are difficult if not impossible to print or embroider. In order to decorate bags when classical techniques are not appropriate, HALFAR® provides digital printing labels. They can be embroidered on a finished bag or sewn on the shoulder strap.

3D Label

3D Label

Gives Real Depth to your Logo.

Thanks to a special printing technology, we can apply your logo in a hologram style. It becomes fascinatingly vivid with the 3D effect; almost as if the object were floating on the desk. The new 3D label can be applied to any bag just like the digital print label, including embroidered bags or straps.

Doming

Like a dome for your logo!

Take your logo to another dimension! With Domings, make it look lively and luxurious. The unique effect occurs when the logo is coated with an epoxy resin to create a transparent dome. Domings are flexible and extremely hard wearing. Excellent sun and water resistance ensures that their high quality aspect is retained over a long period of constant use.

Doming can be fixed onto your bags in various ways as stickers on the bag: on the zipper attachment or as optional hangtags. Some HALFAR® bags have been specifically designed for the use of doming. For the rest of the collection Doming can easily be added as an option.

Ask for advice about all the possibilities and advantages offered by the use of Doming.

Metal emblem

Metal emblem

For a lasting impression.

You can immortalize your logos on special quality metal emblems. Choose from two versions: either metal emblems with a stylishly lasered logo, or metal emblems with doming. On these the logo looks vividly colourful and very sculptured and the metal works like a frame. Both versions are available in oval and rectangular shapes.

Shoulder pad

Special pad for embroidery

Not only does a padded shoulder pad bring you extra comfort, it is also an excellent additional option offering big advertising possibilities. Many pads simply cannot be embroidered. Our special shoulder pads can! They are specially designed for printing or embroidery. Most bags can be equipped, just ask our team!

Wrap it up!

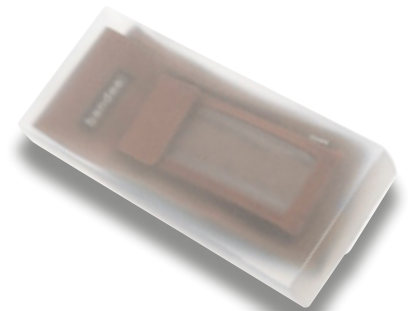

Matching packaging is a real plus for your bag and it makes it a special present. For an order of at least 50 pieces, we offer you the option of having your bags and backpacks delivered in high quality gift packaging that can even be used directly for shipping.

The personalized solution

Would you like a package specially designed for your bag? Depending on the number of pieces ordered and on the article that you have chosen, we can make your wish come true.

1899004

Only for the bandee:®

This see-through packaging is a great additional option.

1899001-3

The gift pack

Ready for shipping, a cardboard gift box available in three sizes that fit most HALFAR® bags.

1899007

New for our Minis.

To gain the maximum advertising effect with the Minis, we also offer the matching shipment packaging for some of our small bags.

Special Editions

**Your company is unique?
That is good; our bags are too.**

Whether unusual fabrics, or even your own materials, whether with special functions or with an individual cut and design: Special editions by HALFAR® even make the most unusual bag dreams come true.

[This example is not for sale but for your inspiration]

“Lufthansa” Bags: Made from used leather seat covers and with original seat belt buckle – the image of a brand cannot be more beautiful or authentic.
